ROCHESTER RESOURCES LTD.
NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS
FOR THE SIX MONTHS ENDED NOVEMBER 30, 2024
(Unaudited - Expressed in Canadian Dollars)

1. Nature of Operations and Going Concern

Rochester Resources Ltd. (the “Company”) was incorporated on September 7, 1989 under the provisions of the Company Act (British Columbia). The Company is listed and trades on the TSX Venture Exchange (“TSXV”) under the symbol “RCT”. The Company’s head office is located at #1305 - 1090 West Georgia Street, Vancouver, British Columbia V6E 3V7 Canada.

The Company is engaged in the exploration and development of its mineral property interests in Mexico. The mineral exploration and development business involves, by its nature, a high degree of risk and there can be no assurance that the current operations or exploration projects will result in sustainable profitable mining operations. All of the Company’s exploration and evaluation assets and property, plant and equipment are located in Mexico, and hence are subject to the risks normally associated with foreign investment including unanticipated changes in taxes and royalties, renegotiation of contracts, foreign currency fluctuations and political uncertainties.

As at November 30, 2024, the Company had a working capital deficit of \$13,564,803 and non-current liabilities of \$22,263,621. The Company has been unable to make all concessions payments when due in the current and prior years for the Mina Real, San Francisco and Santa Fe properties. The Company is also in the process of resolving a dispute resulting from government audits and, as a result, has relied on ongoing advances from officers of the Company. See also Notes 9(e) and 15(a). The Company’s ongoing operations are dependent on extracting mineralized material from the Mina Real and San Francisco properties and, therefore, on the Company’s ability to preserve its interest in the underlying mineral property interests. In the immediate term, the Company’s ability to continue as a going concern is dependent upon the market prices of silver and gold, its ability to improve its operations to maintain positive operating cash flow from the Mina Real and San Francisco properties on a consistent basis and to raise additional capital to fund its ongoing business operations and exploration projects and repay indebtedness as they come due. Additional capital may be sought from existing shareholders and creditors and from the sale of additional common shares or other equity or debt instruments. There is no assurance such additional capital will be available to the Company on acceptable terms or at all. In the longer term, the Company’s ability to continue as a going concern will be dependent upon the discovery of economically recoverable reserves and the achievement of profitable operations. Whether the Company can generate positive cash flow on a consistent basis and, ultimately, achieve profitability is uncertain. These uncertainties cast significant doubt upon the Company’s ability to continue as a going concern.

These condensed consolidated interim financial statements have been prepared on a going concern basis which assumes the Company will continue to realize the value of its assets and discharge its liabilities and other obligations in the ordinary course of business. Should the Company be required to realize the value of its assets in other than the ordinary course of business, the net realizable value of its assets may be materially less than the amounts shown in the consolidated financial statements. These condensed consolidated interim financial statements do not include any adjustments to the amounts and classifications of assets and liabilities that may be necessary should the Company be unable to repay its liabilities and meet its other obligations in the ordinary course of business or continue operations.

2. Basis of Preparation

Statement of Compliance

These condensed consolidated interim financial statements have been presented in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board (“IASB”), applicable to the preparation of interim financial statements, including IAS 34, *Interim Financial Reporting*. The preparation of financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

Basis of Measurement

The Company’s condensed consolidated interim financial statements have been prepared on the historical cost basis except for the revaluation of certain financial assets and financial liabilities to fair value. These condensed consolidated interim financial statements are presented in Canadian dollars unless otherwise stated.

FOR THE SIX MONTHS ENDED NOVEMBER 30, 2024
(Unaudited - Expressed in Canadian Dollars)

2. Basis of Preparation (continued)

Details of the Group

In addition to the Company, the consolidated financial statements include all subsidiaries. Subsidiaries are all corporations over which the Company is able, directly or indirectly, to control financial and operating policies, which is the authority usually connected with holding majority voting rights. Subsidiaries are fully consolidated from the date on which control is acquired by the Company. Inter-company transactions and balances are eliminated upon consolidation. They are de-consolidated from the date that control by the Company ceases.

The subsidiaries of the Company are as follows:

<u>Company</u>	<u>Location of Incorporation</u>	<u>Ownership Interest</u>
ALB Holdings Ltd. ("ALB")	Canada	100%
Mina Real Mexico S.A. de C.V. ("Mina Real")	Mexico	100%
Compania Minera Santa Fe S.A. de C.V. ("Compania Minera")	Mexico	70%

3. Material Accounting Policies

These condensed consolidated interim financial statements have been prepared on a basis consistent with the material accounting policies disclosed in the consolidated financial statements for the year ended May 31, 2024. Accordingly, they should be read in conjunction with the consolidated financial statements for the year ended May 31, 2024.

Accounting Standards and Interpretations Issued but Not Yet Effective

IFRS 18, *Presentation and Disclosure in Financial Statements*, which will replace IAS 1, *Presentation of Financial Statements* aims to improve how companies communicate in their financial statements, with a focus on information about financial performance in the statement of profit or loss, in particular additional defined subtotals, disclosures about management-defined performance measures and new principles for aggregation and disaggregation of information. IFRS 18 is accompanied by limited amendments to the requirements in IAS 7 *Statement of Cash Flows*. IFRS 18 is effective from January 1, 2027. Companies are permitted to apply IFRS 18 before that date.

The Company has performed an assessment of new standards issued by the IASB that are not yet effective and has determined that any other standards that have been issued would have no or very minimal impact on the Company's consolidated financial statements.

Through Mina Real the Company has an agreement to acquire a 70% interest in one concession (the “Santa Fe Property”) located near the Mina Real Property. Under the terms of the agreement the Company agreed to implement a program of exploration to determine if the Santa Fe Property can be economically exploited. In addition, if the exploration work is successful, the Company agreed to provide the necessary capital to construct a processing plant capable of processing a minimum of 200 tonnes per day. To date, the Company has conducted limited exploration on the Santa Fe Property. The agreement was disputed by the 30% concession owners and the court has ordered the Company to return the Santa Fe property concession to the 30% concession owners, pay the ongoing monthly fee of US \$10,000 to the 30% concession until the concession is returned, pay US \$261,000 for a historical extraction and dissolve the Company’s subsidiary Compania Minera. The Company is currently in the negotiation process with the 30% concession owners. During fiscal 2024 the Company made total payments of US \$190,000. As at November 30, 2024 US \$431,000 (May 31, 2024 - US \$371,000) remained unpaid and is included in accounts payable and current liabilities.

During fiscal 2016 the Company assessed whether an impairment was required with respect to the Santa Fe Property as required by IFRS 6. In making the assessment management considered the Company’s financial situation and its inability to implement an exploration work program. As a result the Company recorded an impairment charge to reduce the carrying value to \$nil. The Company continues to record impairment charges for all subsequent costs incurred and capitalized on the Santa Fe Property to maintain the carrying value at \$nil.

9. Amounts Due

The Company had received ongoing loans and advances, incurred indebtedness and issued debentures with its shareholders and current and former directors of the Company. The loans, advances, debentures, indebtedness and accrued interest (the “Amounts Due”) were payable on demand and were classified as current liabilities as at May 31, 2022. Certain holders of the Amounts Due agreed to not demand repayment and accordingly, the Company has reclassified these amounts as non-current liabilities.

9. Amounts Due (continued)

- (d) The indebtedness (the “Indebtedness”) is secured by the assets of the Company and interest is calculated at 9% per annum.
- (e) The Company has received ongoing advances from its shareholders to provide working capital and, most recently, funding to implement an upgrade to its mill and plant facility. The terms of the advances have not been determined. As at November 30, 2024 \$1,277,712 (May 31, 2024 - \$297,587) remained outstanding, of which \$854,610 (May 31, 2024 - \$297,587) was due to the Chairman of the Company.

10. Share Capital

(a) ***Authorized Share Capital***

The Company’s authorized share capital consisted of an unlimited number of common shares without par value. All issued common shares are fully paid.

(b) ***Equity Financings***

The Company did not conduct any equity financings during the six months ended November 30, 2024 or fiscal 2024

(c) ***Warrants***

A summary of the number of common shares reserved pursuant to the Company’s outstanding warrants at November 30, 2024 and 2023 and the changes for the six months ended on those dates, is as follows:

	2024		2023	
	Number	Weighted Average Exercise Price \$	Number	Weighted Average Exercise Price \$
Balance, beginning and end of period	-	-	1,843,243	0.075

No warrants were outstanding as of November 30, 2024.

(d) ***Share Option Plan***

The Company has established a rolling share option plan (the “Plan”) in which the maximum number of common shares which can be reserved for issuance under the Plan is 10% of the issued and outstanding shares of the Company. The minimum exercise price of the options is set at the Company’s closing share price on the day before the grant date, less allowable discounts. Options granted may be subject to vesting provisions as determined by the Board of Directors and have a maximum term of ten years. The Plan permits the holder of share options to exercise cashless (net exercise) by surrendering a portion of the underlying share option shares to pay for the exercise cost.

No share options were granted during the six months ended November 30, 2024 or 2023.

11. Related Party Disclosures

A number of key management personnel, or their related parties, hold positions in other entities that result in them having control or significant influence over the financial or operating policies of those entities. Certain of these entities transacted with the Company during the reporting period.

(a) *Transactions with Key Management Personnel*

The Company considers its key management to consist of the Company's Chairman, the Chief Executive Officer ("CEO"), and the Chief Financial Officer ("CFO"). During the six months ended November 30, 2024 the Company incurred \$80,115 (2023 - \$24,404) for compensation to its key management personnel. No fees were incurred with respect of the Chairman, during the six months ended November 30, 2023. As at November 30, 2024 \$1,263,112 (May 31, 2024 - \$1,191,008) remained unpaid.

(b) *Transactions with Other Related Parties*

(i) During the six months ended November 30, 2024 the Company incurred \$19,500 (2023 - \$6,000) for compensation to non-executive directors and an officer of the Company. As at November 30, 2024 \$242,500 (May 31, 2024 - \$228,000) remained unpaid.

(ii) During the six months ended November 30, 2024 the Company incurred a total of \$33,920 (2023 - \$35,750) to Chase Management Ltd. ("Chase"), a private corporation owned by the CEO of the Company, for accounting and administration services provided by Chase personnel, excluding the CEO. As at November 30, 2024 \$3,792 (May 31, 2024 - \$nil) remained unpaid.

As at November 30, 2024 a total of \$1,509,404 (May 31, 2024 - \$1,419,008) remained unpaid to related parties. The Chairman and CEO of the Company agreed to not demand repayment of \$1,120,540 (2023 - \$1,108,300) and accordingly, the Company has reclassified these amounts as non-current liabilities.

	November 30, 2024 \$	May 31, 2024 \$

Balance, end of period	1,364,188	1,274,116

The total undiscounted amount of estimated cash flows required to settle the Company's estimated obligation at November 30, 2024 was US \$1,285,000 (May 31, 2024 - US \$1,285,000) which, as at November 30, 2024, has been discounted using a credit adjusted pre-tax risk free rate of 10.02% (2023 - 9.39%) and an inflation rate of 4.55% (2023 - 4.32%). The present value of the reclamation liability may be subject to change based on management's current estimates, changes in remediation technology or changes to the applicable laws and regulations. Such changes will be recorded in the accounts of the Company as they occur. The settlement of the obligation is anticipated to occur primarily in fiscal 2030.

13. Financial Instruments and Risk Management

Categories of Financial Assets and Financial Liabilities

Financial instruments are classified into one of the following categories: fair value through profit or loss ("FVTPL"); amortized cost; and fair value through other comprehensive income ("FVOCI"). The carrying values of the Company's financial instruments are classified into the following categories:

Financial Instruments	Category	November 30, 2024 \$	May 31, 2024 \$
Cash	FVTPL	603,358	119,951
Amounts receivable	Amortized cost	1,782,837	1,867,523
Accounts payable and accrued liabilities	Amortized cost	(16,043,187)	(17,273,360)
Amounts payable to directors and officers	Amortized cost	(1,509,404)	(1,419,008)
Lease liabilities	Amortized cost	(520,922)	(417,068)
Amounts due	Amortized cost	(20,927,450)	(19,260,032)

The Company's financial instruments recorded at fair value require disclosure about how the fair value was determined based on significant levels of inputs described in the following hierarchy:

Level 1 - Quoted prices are available in active markets for identical assets or liabilities as of the reporting date. Active markets are those in which transactions occur in sufficient frequency and value to provide pricing information on an ongoing basis.

Level 2 - Pricing inputs are other than quoted prices in active markets included in Level 1. Prices in Level 2 are either directly or indirectly observable as of the reporting date. Level 2 valuations are based on inputs including quoted forward prices for commodities, time value and volatility factors, which can be substantially observed or corroborated in the market place.

Level 3 - Valuations in this level are those with inputs for the asset or liability that are not based on observable market data.

The recorded amounts for amounts receivable, accounts payable and accrued liabilities, amounts payable to directors and officers, and amounts due approximate their fair value due to their short-term nature. The recorded amounts for lease liabilities and amounts due approximate fair value and they have interest at market rates for similar debt. The Company's fair value of cash under the fair value hierarchy is measured using Level 1 inputs.

13. Financial Instruments and Risk Management (continued)

The Company's risk exposures and the impact on the Company's financial instruments are summarized below:

Credit Risk

Credit risk is the risk of loss associated with a counterparty's inability to fulfill its payment obligations. The Company's credit risk is primarily attributable to cash and amounts receivable. Management believes that the credit risk concentration with respect to financial instruments included in cash and amounts receivable is remote. Amounts receivable are due from one customer.

Liquidity Risk

Liquidity risk is the risk that the Company will not have the resources to meet its obligations as they fall due. The Company's ability to manage this risk is affected by low grades of mineralized material and operational challenges. See Note 1. The following table is based on the contractual maturity dates of financial assets and the earliest date on which the Company can be required to settle financial liabilities.

	Contractual Maturity Analysis at November 30, 2024				
	Carrying Amount \$	Contractual Cash Flows \$	Less than 3 Months \$	3 - 12 Months \$	1 - 5 Years \$
Cash	603,358	603,358	603,358	-	-
Amounts receivable	1,782,837	1,782,837	1,782,837	-	-
Accounts payable and accrued liabilities	(16,043,187)	(16,043,187)	(16,043,187)	-	-
Amounts payable to directors and officers	(1,509,404)	(1,509,404)	-	(388,864)	(1,120,540)
Lease liabilities	(520,922)	(520,922)	(24,474)	(73,422)	(423,026)
Amounts due	(20,927,450)	(20,927,450)	-	(1,571,583)	(19,355,867)

Market Risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates, and commodity and equity prices. These fluctuations may be significant.

(a) Interest Rate Risk

The Company is exposed to interest rate risk to the extent that the cash bears a floating rate of interest. The interest rate risk on cash and on the Company's obligations are not considered significant.

(b) Commodity Price Risk

The Company is subject to risk from fluctuations in the market prices of silver and gold. Silver and gold prices have historically fluctuated widely and are affected by numerous factors outside of the Company's control. The profitability of the Company's operations is highly correlated to the market prices of these metals, as is the ability of the Company to develop its other properties. If metal prices decline for a prolonged period below the cost of production of the Company's Mina Real mine, it may not be economically feasible to continue production.

The Company does not hedge silver and gold prices.

(c) Foreign Currency Risk

The Company's functional currency is the Canadian dollar and the Company's operating expenses are incurred in Canadian Dollars and Mexican Pesos. The Company also has advances denominated in US Dollars. Management believes the foreign exchange risk related to currency conversions are minimal and therefore does not hedge its foreign exchange risk. At November 30, 2024, 1 Canadian Dollar was equal to 14.52 Mexican Pesos and 0.71 US Dollar.

13. Financial Instruments and Risk Management (continued)

Balances are as follows:

	Mexican Pesos	United States Dollars	CDN \$ Equivalent
Cash	4,896,910	182,976	594,965
Amounts receivable	2,839,696	1,177,640	1,782,837
IVA tax receivable	15,858,521	-	1,092,185
Inventories	10,163,534	-	700,166
Accounts payable and accrued liabilities	(222,567,653)	(504,864)	(15,477,746)
Amounts payable to directors and officers	-	(62,150)	(87,535)
Amounts due	-	(7,247,587)	(10,207,869)
	<u>(188,808,992)</u>	<u>(6,453,985)</u>	<u>(21,602,997)</u>

Based on the net exposures as of November 30, 2024 and assuming that all other variables remain constant, a 10% fluctuation on the Canadian Dollar against the Mexican Peso and the US Dollar would result in the Company's comprehensive income (loss) being approximately \$2,651,000 higher (or lower).

Capital Management

The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support the acquisition and exploration of mineral properties. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. The Company defines capital that it manages as share capital, cash and cash equivalents and short-term investments. The Company will continue to assess new properties and seek to acquire an interest in additional properties if it feels there is sufficient geologic or economic potential and if it has adequate financial resources to do so. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

14. Segmented Information

The Company operates in one reportable segment, the acquisition, exploration and development of exploration and evaluation assets. The Company's mineral operations are located in Mexico and its corporate assets, comprising mainly of cash, are located in Canada.

15. Contingent Liability and Commitments

- (a) From time to time the Company becomes involved in various claims and litigation, including various governmental audits, as part of the normal course of operations. The Company continues to work with legal counsel to review and respond to the reassessment and, as at November 30, 2024, has accrued a provision of \$750,000 (May 31, 2024 - \$750,000). The Company has pledged the Mexican office building with an assessed value of \$690,000 and has paid a cash deposit of \$210,000 related to the ongoing litigation with the Mexican state of Nayarit's Secretary of Administration and Finance.
- (b) The Company has only made partial government concession payments and accrued carrying charges on its concessions. As at November 30, 2024 \$5,582,361 (May 31, 2024 - \$5,958,636) of government concession payments remained unpaid and are included in accounts payable and accrued liabilities.
- (c) The Company has only made partial concession payments on the Santa Fe Property, as described in Note 6.

16. Supplemental Cash Flow Information

During the six months ended November 30, 2024 and 2023 non-cash activities were conducted by the Company as follows:

	2024 \$	2023 \$
